

Fort Greely Better Opportunities for Single Soldiers (BOSS)

Is seeking **community comments** regarding a proposed service project to upgrade/restore Delta Junction Milepost 1422 marker

Current condition:

- Cracked and crumbling concrete border and foundation
 - Weathered and rotted wooden materials
 - Weathered, flaking and chipped paint
 - Weathered, peeling and missing stickers
- ❖ Soldiers desire to support community through a restoration project

Restoration would:

- Be done with all new materials and fully painted lettering, arrows and numbers
- Replace concrete pad and platform
- Remove planter cut-outs
- Replace pipes, chains and flagpole holders

City Council Decision:

- Choice of paint color
- Retain current design or change to match Dawson Creek
- Redesign marker logo to improve quality, properly represent Mount Hayes and retain link to barley project and bison re-introduction

Comments can be sent to chris.j.maestas.civ@mail.mil or leave feedback in the comments section of this posting
