

How do you participate in the 2020 Census?

2020 Census questionnaires were mailed to Delta residents that have *physical* mailing addresses (March 12-20). Residents with Post Office boxes were to have questionnaires delivered to their homes (mid-March to late April), but, as of March 18, 2020, all field operations were suspended because of the coronavirus.

Area residents are encouraged to respond online or telephonically, using a code that is included in delivered packets that identify households.

To file a non-ID response without a code, residents are required to enter their physical address. Screenshot the code with a cell phone to post on door, to inform Census field workers that your household's survey is already done.

It has never been easier to respond on your own. To fill out the Census without leaving your house, go online (my2020census.gov) or call 1-844-330-2020. Use your desk computer, laptop, or cell phone. Go to the Library's parking lot if you need Internet.
