

## ITEMS ACCEPTED AT CITY LANDFILL

- Refrigerators, freezers, air conditioners that have been previously inspected and tagged. Doors and cords must be removed. If not tagged, weight plus \$25 is charged to remove Freon. Landfill permit restricts a stockpile of no more than 25.
- Paint – dry only
- Lawn mowers and other small engine machines without oils, fuel, and fuel filters
- TVs, computers, and other electronic equipment
- Light bulbs in household quantities only – No fluorescent bulbs (contains PCB)
- Construction material - wood, sheet rock, metal, glass, etc
- Scrap metal
- Tires
- Propane tanks, fire extinguishers, compressed gas cylinders (valves and gas removed)
- Used appliances – stoves/ovens, dishwashers, laundry machines, etc
- Furniture, carpeting/rugs, mattresses
- Paper/plastic
- Household/kitchen trash
- Anything that is not a hazard
- 55-gallon drums – tops cut off or crushed after cleaned
- Dead animals – notice required – dead animals delivered to a designated area

## ITEMS NOT ACCEPTED AT CITY LANDFILL

### Hazardous waste to include, but not limited to:

- Vehicles / snow machines / ATVs
- Asbestos - FNSB accepts asbestos
- Acids
- Corrosives
- Solvents
- Oily waste
- Automotive/batteries – Recycle batteries at NAPA
- Explosives
- Radioactive waste
- Pathogenic waste (blood, body fluids, needles - must be in puncture-proof container)
- PCB's (man-made organic chemicals, oily liquids or solids, clear to yellow, no smell or taste)
- Glycol is a non-hazardous waste, but a combustible liquid. It can be burned if it has no other contaminants. There are a couple businesses in Anchorage that recycle glycol waste.
- Fluorescent bulbs – take to Batteries + Bulbs or North Coast Electric
