About the Federal Audit Clearinghouse

The FAC, operated by the U.S. General Services Administration (GSA), serves as the central repository for Single Audit reports submitted by non-federal entities that expend \$750,000 or more in federal awards during a fiscal year. These audits assess compliance with federal program requirements and the effectiveness of internal controls. The FAC's database is publicly accessible and provides transparency in federal award spending and oversight.

If you need assistance navigating the FAC website or interpreting the audit reports, feel free to ask!
